Welcome to morEnergy Savings Corp.

## Protected Rates on Our Home Energy?

That's a sensible plan for peace of mind.

In today's tight economy, the energy conservation measures you take at home will only go so far in saving you money. You also have to make an informed, long-term savings plan for the energy you and your family are bound to consume. We will all be affected by supply and demand issues in the years to come - what measures will you take to protect your home? Thank goodness we now operate in a deregulated market that offers you the choice to find the most cost-efficient energy options for your home or small business. morEnergy Savings buys from our trusted commodity partners at long-term, fixed-price supply contracts and passes the savings directly to you. Enjoy the benefits of long-term protected prices on your energy bill.

### IS AN ENERGY CONTRACT RIGHT FOR YOU?

We can send an energy consultant directly to your door within 24 hours to explain our program or, with your permission, we'll sign you up quickly and easily over the phone. MORE savings, MORE long-term value, MORE quality of service - it's already making sense to MORE than 10,000 energy-wise Ontario customers.

morEnergy Savings and BLUE POWER are licensed by the Ontario Energy Board (OEB) to act as retailers in the sale of natural gas and electricity to both low- and high-volume residential and commercial customers, and operate in the Province of Ontario under licenses EB-2008-0349 and EB-2008-0356, respectively.

We are a leading Canadian provider of natural gas and electricity solutions for your home and business. morEnergy Savings and its electricity affiliate, BLUE POWER, are members of the morEnergy Services Inc. family of companies and are located in Toronto, Ontario. Our foundation in energy management and renewable energy solutions allows us to continuously expand our product and service portfolio. Our goal in a deregulated market is to help you effectively manage your energy budget. We work alongside our commodity partners to help you avoid the uncertainty of market fluctuations by offering you managed energy costs through fixed-rate, fixed-term energy contracts.

Anyone can sell you energy, but morEnergy Services Inc. is trusted as a single-source provider of high-performance energy delivery, equipment, and energy management solutions throughout Ontario. Our reputation for excellence is rooted in the integrated approach we take to deliver efficient, economical and environmentally sustainable solutions for homeowners and GREEN BUILD developers and corporations.
